

clean Colorbond®
SPECTRUM SERIES

The Beauty of METALLIC

Clean COLORBOND® steel - SPECTRUM SERIES is developed by BlueScope Steel for the ultimate solution in beauty and design flexibility without compromising durability. The distinctive metallic surface draws on the environment and surrounding structures to enhance the prestigious appearance of your building with subtle yet remarkable effects.

DESIGNING WITH THE POWER OF LIGHT

As light gently washes over the mica particles in the metallic finish, a unique perception of depth is acquired. In addition, the mica particles create an amazing effect as the appearance of the prepainted steel surface changes according to the varied lighting conditions and viewing angles. Whether it is creating a distinctive architectural feature or regulating the conditions of incidental lightings, Clean COLORBOND® steel - SPECTRUM SERIES will definitely complement and enhance the aesthetic design of your building.

THE BEAUTY OF METALLIC, THE DURABILITY OF CLEAN COLORBOND® STEEL

With the intelligently formulated technology of Clean COLORBOND® steel as the basis behind of development for Clean COLORBOND® steel - SPECTRUM SERIES, durability was never compromised for aesthetic beauty. The tonal spread of colours has been carefully selected to blend harmoniously with the tropical environment, reflecting the strength and beauty of the tropics. Behind the colour attributes lies the same Clean COLORBOND® steel, as a household brand for prepainted steel roofing, giving you assurance with warranty* supported by BlueScope Steel.

** Warranty terms and conditions apply.*

For application near to marine environment, kindly consult our sales representative.

Pebble Grey

Champagne Gold

Bronzite Bronze

STANDARD APPLICATION

For your aesthetic roof.

PRETREATMENT

Corrosion resistant proprietary coating.

PRIMER COAT

Universal corrosion inhibitive primer. Nominal thickness of 5µm both side.
